Department of
Sport and Recreation

Our key goal/objective for this year's Coaching Clinic was to increase the playing capacity of existing golf club members, non-members and women through professional golf coaching.

There were 24 individual sessions completed over the 3 day period and a group session for new players (predominately women). The Exmouth Golf Club hopes to make such professional golf coaching clinics an annual or bi-annual event in the future and sincerely thanks Wade for travelling to Exmouth for a second year in a row and for the excellent coaching experience!
